

Volunteer Program

Have you ever thought about teaching your language to students of other languages abroad?

This project is aimed to provide assistance to secondary students in Ha Noi city, or Ha Long city, or Ho Chi Minh city to increase their communication skill in foreign languages. YFU Vietnam connected to schools that English, French, and German languages are being taught. This project offers you the opportunity to assist in developing the students' language skills while engaging in an intercultural exchange.

Volunteers' tasks include helping students improve their vocabulary, pronunciation, intonation and providing general information about your home countries. Volunteers are required to follow the topics planned by the schools. There are some events and field trips for students during one school year / semester that need volunteers joining in. Extra activities (e.g. English speaking club) may be provided after class or at weekends.

Sign-up deadline:

High School Program

How about spending your gap year in a coastal Asian country? One year in Vietnam brings you priceless experience that is nowhere to be found!

You will have an opportunity to gain insights into family tradition, school life, and community. Hospitable people here are eager to know about other countries' culture and pleasure to meet foreigners. Learning in a country located in another continent will let you compare the two different education systems as well as learning styles. Being an exchange student Vietnam, you will experience living with your cozy host families, attending to a new school, learning a new language, meeting new native friends, and traveling to new destinations.

Host families are carefully selected by YFU Vietnam. They have no compensation for hosting because they have their biggest motivation: learning new cultures and sharing their culture. At school, you will join in some classes and learn Vietnamese language through daily communication with local students. The schools also hold some field trips to some tourist attractions within the school year.

Required ages on arrival: 15 to 17

Total fee:
